

2015 ANNUAL REPORT

2015 was a strong year for Tech Coast Angels (TCA). Our membership grew to 326 (an all-time high) and we invested \$13.5 million in a total of 58 companies across a diverse mix of industries in 2015 -- showing that we continue to invest in both tech companies and non-tech companies:

2015 TCA Investments by Industry
\$13.5 Million

2015 TCA Investments by Industry
58 Companies

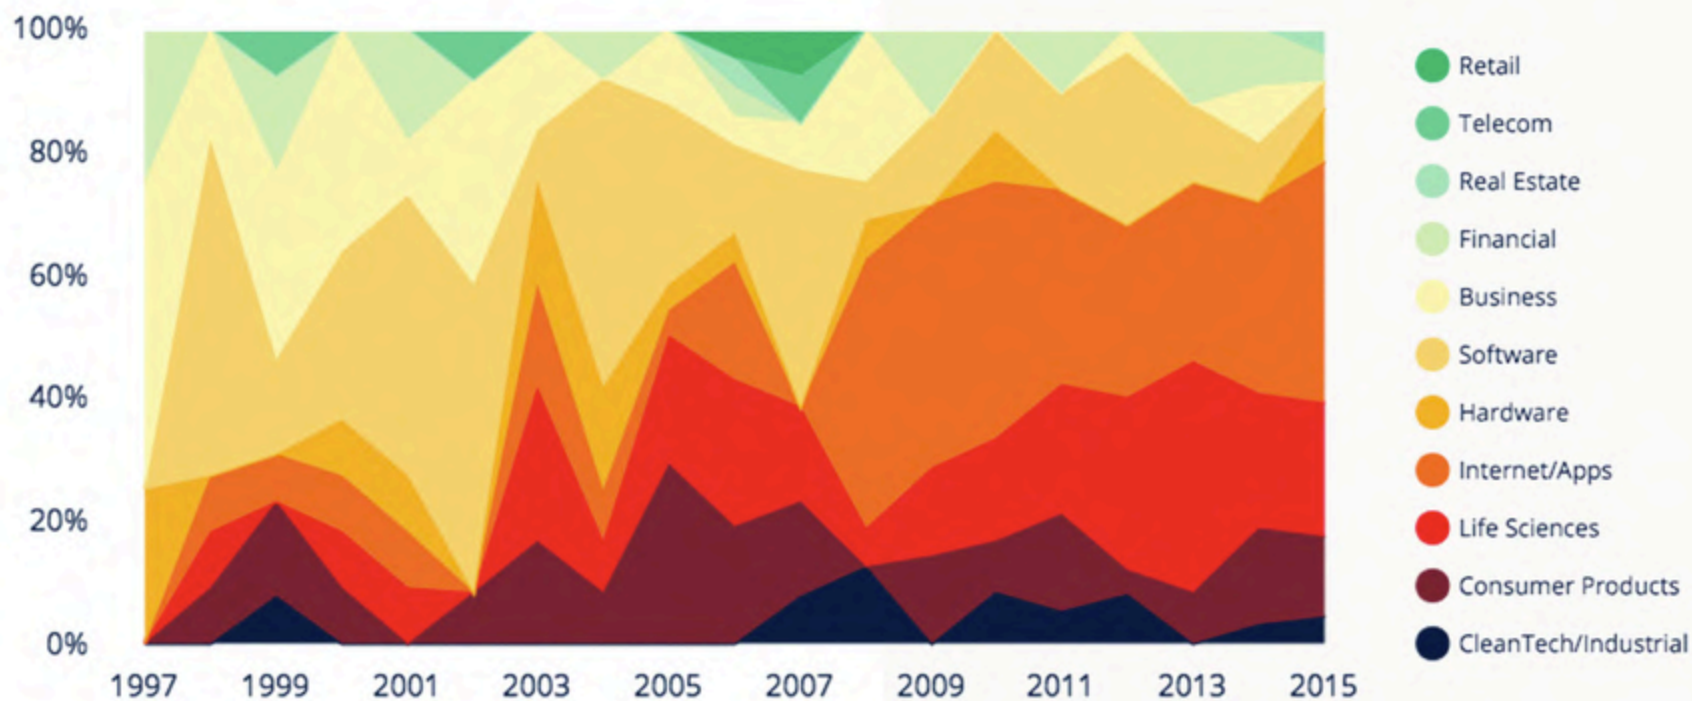

CREATED WITH
visage.co

In addition to direct investments, we also helped our portfolio companies obtain an additional \$82 million in outside investments.

Our total investment for the year was slightly off our record \$16.7 million year in 2014. The only other years in which TCA exceeded 2015's total for investments were in 1999 (\$16.3 million) and 2013 (\$14.9 million).

Our angel network also had six exits in 2015, including three successful IPOs (Mindbody, CytomX and CRISI Medical Systems) and three acquisitions (Olive Medical, Thermark and Wispry). This brings the total exits since the network's inception in 1997 to 60. Of the 306 investments TCA has made since its founding in 1997, 60% are still active. If the remaining active investments yield similar outcomes to the 60 realized since TCA's origination, investing equal amounts across TCA's entire portfolio would yield a return of 360% of the initial investment.

Our 326 members, with their extensive and broad industry experience, help us invest with confidence in this industry diversity, which has always been part of TCA's DNA:

TCA investment in new companies was 35% of the total invested last year, compared to 41% in 2014 and 63% in 2013. This trend is similar to the mix shift in 2001 and 2009, at the end of those investment cycles. This suggests that 2016 will be a tough funding environment for entrepreneurs, but for those who get funded and survive, they will be particularly well positioned to thrive in the uptick during the next cycle. Our advice to early stage entrepreneurs at this stage in the cycle is:

- Valuations are dropping, so don't cling to a higher expectation based on averages for the last several years. Doing so may leave you underfunded or even unfunded
- Raise as much money as you can in the current round, and not be concerned about dilution. The next round of equity is particularly challenging at this point of the cycle in which we are now entering
- Develop a plan that allows you to achieve cash flow breakeven with the funds you are raising in the current round. This may not be your "Plan A", but you need to have a way to survive if funding during the coming "dry years" does not materialize. At this coming stage in the cycle, VCs understandably focus on keeping their existing portfolio companies alive rather than place many new bets
- Spend wisely and frugally. If the next dollar you spend does not make for a better product or a better customer experience, don't spend it
- Seek investors who can provide you with experience, guidance and contacts that can help you navigated the challenges ahead

TCA invested in the following companies in 2015:

- AnyMeeting** – Full-featured but affordable web conferencing solution
- Beacon Healthcare** – SaaS compliance for healthcare enterprises
- Beatshare** – Mobile app bringing music to the messaging space
- Bitvore Corporation** – Interface between large-scale databases and big data apps
- CardioCreate, Inc.** – Stem cell tech to enhance regeneration of heart tissue
- Cloudbeds** – Integrated digital marketing hospitality software platform for hotels

- Wasatch Microfluids** – Protein analysis equipment for drug discovery
- WeGoLook** – On mobile platform dispatches Lookers to verify claims by Internet sellers
- Woven Orthopedic Technologies** – Solution to enhance bone fracture fixation

Tech Coast Angels continues to be one of the most influential and largest angel networks in the United States. Since 1997, TCA members in five regions have invested over \$176 million in more than 300 companies and have helped attract more than \$1.6 billion in additional capital/follow-on rounds, from both venture capital firms and strategic partners. The most recent Halo Report rated TCA as #2 nationally in number of funded deals, and a recent analysis by CB Insights ranked TCA #1 out of 370 angel groups on "Network Centrality" and #5 overall in "Investor Mosaic."
